CORPORATION

5C8M

is a club-call of the A.R.R.A.M
(Association Royale des Radio Amateurs du Maroc)

The BCC-crew was allowed to use this call before and after the cqww-contests in 1999 and in 2000.
The callsign during the contests was CN8WW.
We tried to give a chance to the amateur-radio-community to work Morocco especially on the WARC-bands, in RTTY, PSK31, on 6m and even on 2m.
Our sincere thanks to Kacem (CN8LR) and the entire CN8MC crew for their support. Without their kind help these operations wouldn't have been possible. Thanks also to CUSHCRAFT, SIEMENS and SWISSLOG for sponsoring.
